Product Overview

Elo's 2799L 27-inch outdoor open-frame touchscreen monitor is ready for 24/7 use with 1500 NITs of brightness. The IK10, vandal-proof outdoor display offers direct sunlight readability viewable with polarized sunglasses and extended operating temperatures. From payment and ticketing machines to signage and charging stations, the brilliant, optically bonded weatherproof monitor offers locking connectors and supports 12v-24v DC for easy and secure integration into an enclosure.

The 2799L provides outstanding image clarity and light transmissivity, as well as stable, drift-free operation for accurate touch responses – making it well-suited for almost any commercial kiosk application.

Optimize outdoor performance with the ambient light sensor that automatically adjusts the display's brightness to save power and extend the life of the panel.

Mount in landscape, portrait and upward facing orientations, providing optimal flexibility for integrating in any counter, kiosk or cabinet design.

Built for integration into harsh physical and thermal environments: IK10 impact protection with -20C to 60C operating temperatures.
