

EU REACH Candidate List SvHC in Elo products

Article 33 of EU REACH Regulation No. 1907/2006 requires that Elo notify our customers in the case that any of the REACH Candidate List SvHC is present above 0.1% (by weight) in articles that we supply. Article 3(3) of the REACH regulation defines an article as “an object which during production is given a special shape, surface or design which determines its function to a greater degree than its chemical composition”. Most of Elo finished products are considered as articles.

The following table lists out Elo finished products that may contain EU REACH Candidate List SvHC above 0.1% by weight, based on our current understanding:

Article(s) of concern	REACH SvHC present > 0.1% of article
Part number: D82064-000 Part number Description: STYL-TOUCHPEN-PS	Bis(2-ethylhexyl)phthalate (DEHP) (CAS# 117-81-7)
Intellitouch and iTouch screens weighing less than 1 kg	Lead Titanium Trioxide (CAS# 12060-00-3)
	Lead Titanium Zirconium Oxide (CAS# 12626-81-2)
	Lead monoxide (CAS# 1317-36-8)

We are aware that certain EU Member States do require that we inform our customers in the event that articles with > 0.1% of a REACH Candidate List SvHC (by weight) are assembled into our products, even though the final article we supply does not contain REACH Candidate List SvHC > 0.1%. The following table lists out such components (that in itself fit the REACH definition of an article prior to assembly into Elo products) that may contain Candidate List SvHC above 0.1% by weight:

Component	Candidate List SvHC
LCD Panel	Disodium Tetraborate Anhydrous (CAS# 1303-96-4; 1330-43-4; 12179-04-3)
	Boric Acid (CAS# 10043-35-3; 11113-50-1)
Resistors	Lead monoxide (CAS# 1317-36-8)

For additional information regarding EU REACH compliance of Elo products, please contact Elo Customer Service or Elo Sales Representative. Customer service can be reached by phone at 800-557-1458 or by email at CustomerService@elotouch.com
