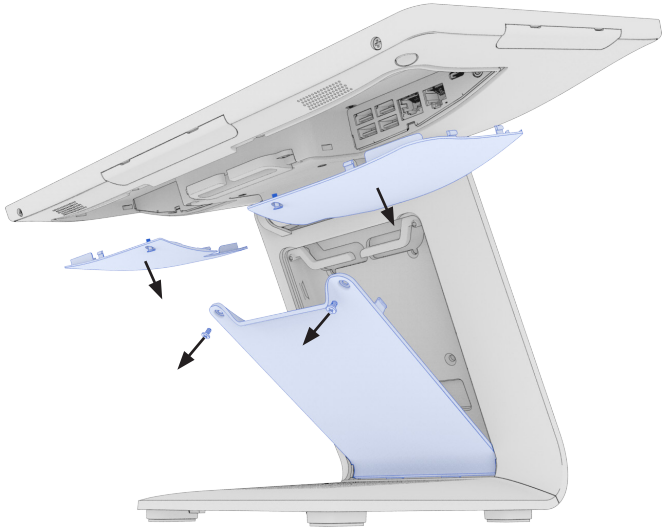
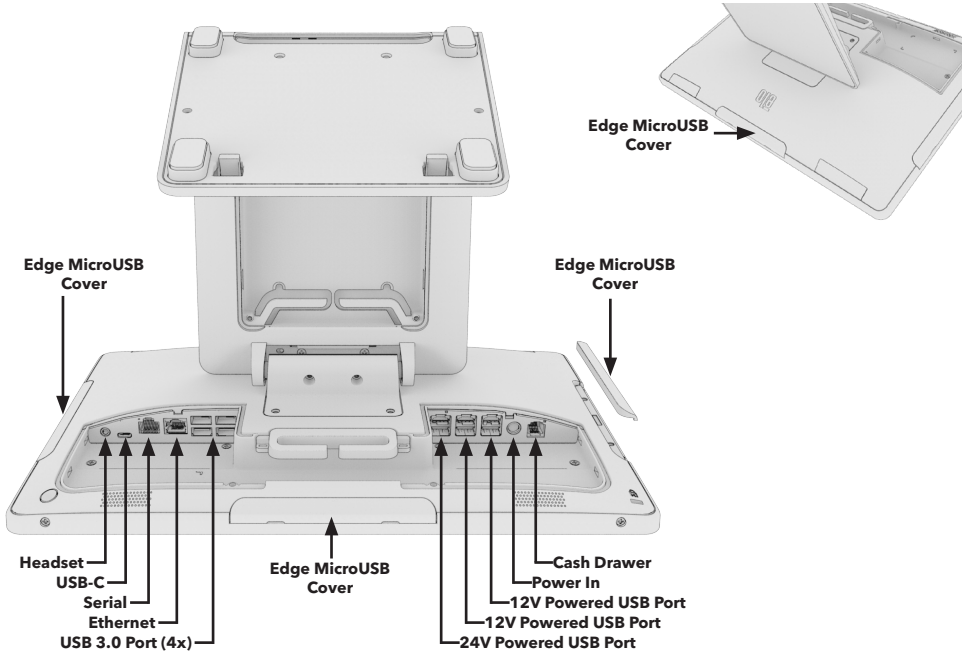
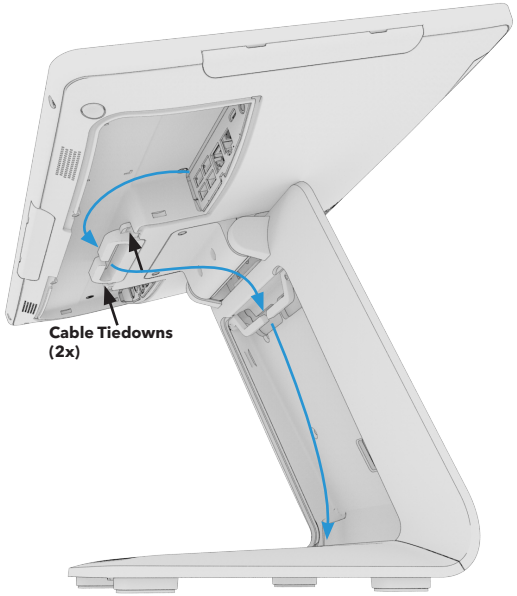
1 Unsnap the cable covers from the display. Remove the stand door by unscrewing the two retaining screws and unsnapping the door from the stand.



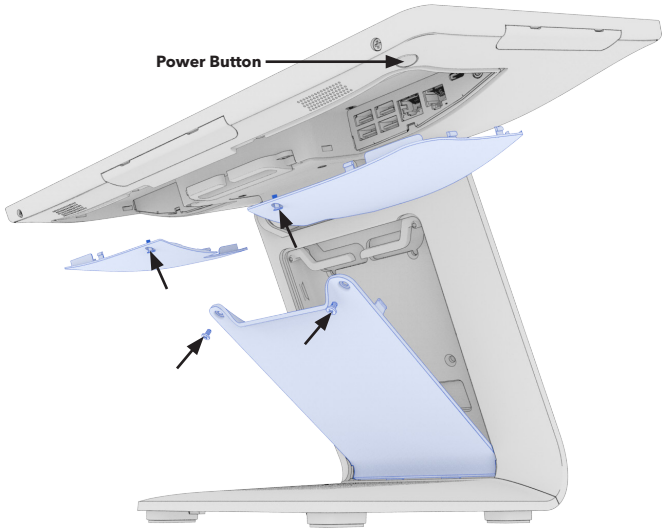
2 Connect the power adapter. Make additional connections as needed. Connect Edge Connect peripherals to edge Micro USB ports by removing covers as shown.



3 Route cables through guide fingers in display and stand, through hole in base of stand. Tie down cables using included Cable Ties at two locations shown. Ensure adequate cable slack so that display can tilt freely.



4 Reinstall the stand door by snapping into the stand and installing the two screws from step 1. Reinstall the cable covers by snapping into the display and tightening the two screws. Press the power button to turn on the Touchcomputer.



See detailed user guide at www.elotouch.com for additional information.
