**EU Battery Declaration**  
This symbol on the battery or on the packaging indicates that the battery provided with this product should not be treated as household waste. Instead, please separate the battery/batteries from other types of waste and recycle them through your local recycling system to protect the environment and health. The chemical symbol for lead (Pb) is added under this symbol if the battery contains more than 0.004% lead. Additionally, the chemical symbol for cadmium (Cd) is added under this symbol if the battery contains more than 0.002% cadmium. For more detailed information about the recycling of these batteries, please contact your local authority or the shop where you purchased the product or batteries.

Quick Installation Guide

EloPOS Z30 Gen 2

Revision B  
P/N E978690

Go to [www.elotouch.com/support](http://www.elotouch.com/support) to download user manual.

- 1** Remove the cable cover door to access the I/O connections.

- 2** Route the DC power cable through the hole in the bottom of the stand and connect it as shown. Connect other I/O cables as needed (see back page). Make sure all cables route behind the plastic clip at the bottom.

- 3** Mount the system to a table (optional). Skip to step 6 if not mounting to a table. Secure the mounting bracket to the table using appropriate screw type and length. Elo suggests M4 or #10 screw diameter. Alternately, use the pre-attached VHB to attach the bracket to the table.

- 4** Lower the system onto the bracket and slide it back, ensuring the bracket hooks engage with the slots on the bottom of the system.

- 5** Secure the system to the bracket using the screw included in the accessory box.

- 6** Power on the system when installation is complete.
