## Installation

Please go to [www.elotouch.com/support](http://www.elotouch.com/support) to verify you have the latest drivers before installing this device.

Select location to mount the bar code scanner. Elo recommends the lower location in either portrait or landscape orientation.

Remove the selected peripheral cover from the touchmonitor

Gently insert the bar code scanner into the peripheral bay taking care to ensure the connector mates properly.

Install the 2 flat head screws included with the kit and cover the screws with the adhesive mylar covers if desired.

### Windows Systems:

Visit the N3680 product page on the Honeywell Scanning and Mobility website to download and install **EZConfig for Scanning** (Version 4.5.20) and **Honeywell Scanning and Mobility USB Serial Driver**

### Android systems:

The Elo Barcode Scanner is ready to use in its default mode. The scanner default mode is:

1. USB virtual com port interface
2. Presentation mode (always on)
3. Beep on scan
4. Set up to read most common codes.

Please note: USB Keyboard Mode will automatically add a CR (carriage return) suffix.  
To return the scanner to the default configuration mode (USB Virtual COM Port), scan the barcode below:

For additional settings and configurations, please visit the product page on [www.elotouch.com](http://www.elotouch.com)
